

FOR IMMEDIATE RELEASE

**DYNALLOY HIRES
NEW PRODUCT DEVELOPMENT CHEMIST**

August 2, 2004 — Dynaloy, LLC, an international manufacturer of engineered chemical solutions for multiple industries and applications, announced today that Don Pfettscher has been hired as Product Development Chemist, effective August 2, 2004.

“New products are the lifeblood of our company. Don’s skills and background give us the capability of developing cutting edge new products to meet any customer need,” said Donn Detzler, President of Dynaloy. “We continue to grow very rapidly, and we continue to hire the top people necessary to meet customer expectations.”

“I am very pleased to be joining Dynaloy,” stated Mr. Pfettscher. “Dynaloy is a rapidly growing company with ever-increasing customer demands for new products for new applications. It’s very exciting to join a company that is committed to meeting customer needs. I’m particularly excited to be developing products for a company that has committed the resources to turn theory into reality, by investing in top-of-the line laboratory equipment. Dynaloy has even purchased a scanning electron microscope, and with this type of equipment, I expect that Dynaloy will continue its track record of developing unique chemistries for demanding applications.”

Mr. Pfettscher received his B.S. in Chemical Engineering from Rose-Hulman Institute of Technology.

ABOUT DYNALLOY

Dynaloy was founded in 1965 and has grown from a regional provider of electronic cleaning chemistries to an international manufacturer of engineered chemical solutions for multiple industries and applications.

In 1997, Dynaloy changed ownership and joined a dynamic group of operating companies with extensive financial resources and 30 years of successful experience in specialty chemical manufacturing. The change in ownership was accompanied by an aggressive change in operating philosophy. This change in approach has resulted in a renewed commitment to creative product development and unmatched technical support and responsiveness. The years since 1997 have seen exponential growth in Dynaloy sales, facilities, staffing and expertise.

Today, Dynaloy is recognized as a key materials supplier to several critical markets, including the rapidly evolving microelectronics industry. Dynaloy has direct sales and technical service offices in several countries and is supported by distribution and representation in most other key parts of the world.
